Anastasia Bovt

Product Designer · UI/UX Designer

Designer with 5+ years of experience in creating end-to-end digital products, from UX research to polished UI. Worked both as a team member and as a lead designer driving full design processes for startups and enterprise clients. Skilled in user research, product strategy, design systems, and collaboration with cross-functional teams. Experienced in building products from scratch, defining release roadmaps, and aligning design with business goals. Also experienced in business analysis, supporting process control and requirement specification.
